Sport Fishing in Midcoast Maine

Fishing in the Bath area is a wonderful experience. The rugged beauty of the rocky coast, the miles of pristine beaches and the wooded shores of the mighty Kennebec all set the tone for a world class fishing trip. June through September is the time for Striped Bass. Light tackle or fly fishing gear lend themselves to these wonderful sport fish. In July the Bluefish and football bluefin tuna show up along the coastal islands and beaches. August and September is the time to try your luck at offshore fishing for shark. Blue Shark with the occasional Mako mixed in cruise the cool waters of the Gulf of Maine. Obsession Charters currently holds the State of Maine Blue Shark Fly Rod Record.
